PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

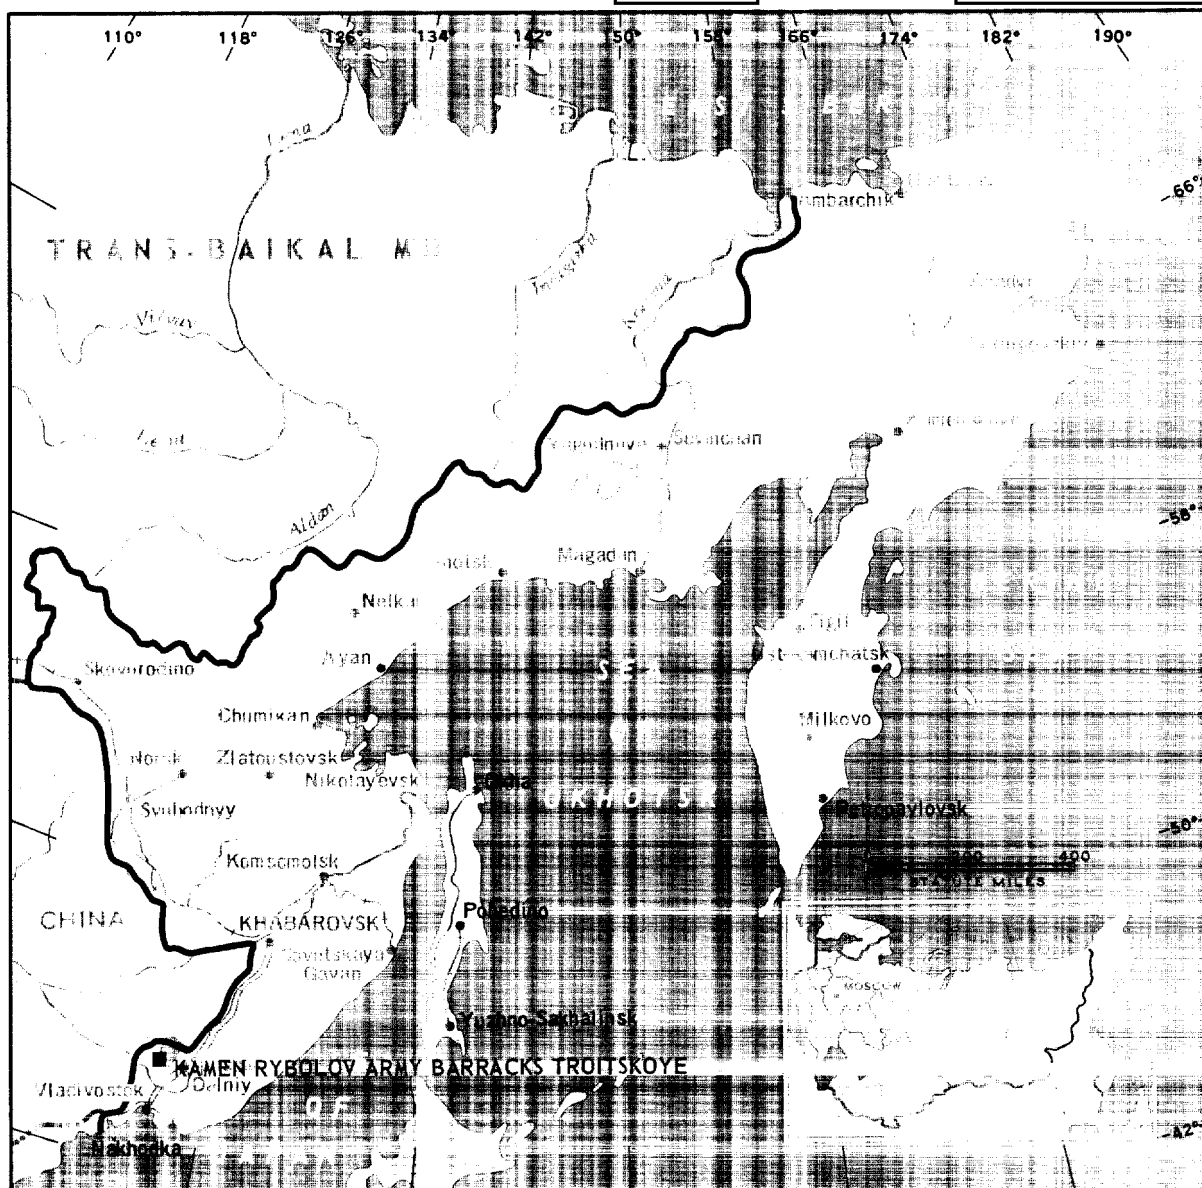

FIGURE 1. LOCATION OF KAMEN-RYBOLOV ARMY BARRACKS TROITSKOYE.

TOP SECRET

SUMMARY

Kamen-Rybolov Army Barracks Troitskoye is located approximately 9 kilometers (km) north of Kamen-Rybolov (Figure 1).

The installation covers approximately 7,500 acres and contains 3 administration buildings, an administration building/barracks, an administration/support building, 41 support buildings, 26 general storage buildings, 4 vehicle maintenance/storage buildings, 10 probable vehicle storage buildings, 4 probable ammunition storage buildings, 21 range support buildings, a building of unknown function, and 3 vehicle parks.

Training facilities consist of 3 tank/assault-gun firing ranges, a probable small-arms range, a probable flat-trajectory/subcaliber range, a probable range of undetermined function,

2 possible artillery batteries, an extensive tracked-vehicle driver-training course, and a fortified position with zig-zag trenches and probable automatic weapons positions (Figures 2, 3, and 4).

The installation was covered by [] missions between [] [] There has been no significant change since initial coverage in [] with the exception of the addition of the unidentified probable range, an increase in activity at tank range N1, and a decrease in activity at ranges N2 and N3.

Winter coverage in [] showed moderate activity at the installation and at tank range N1. The driver-training course showed light activity in []

DESCRIPTION OF INSTALLATION

Railroad Service

A possible off-loading point is located approximately 1 km east of the installation.

Road Service

An all-weather, probably hard-surface road from Kamen-Rybolov serves the installation.

Aircraft Landing Strip

The nearest air facility is a sod field approximately 7 km south of the installation on the northwest edge of Kamen-Rybolov. One possible aircraft was visible.

Administration and Troop Housing Area

Area D contains 3 administration buildings, an administration building/barracks, 12 large barracks, 10 small barracks, 10 general storage

buildings, 20 support buildings, and an unidentified building with a mast-like projection on the roof.

General Storage Areas

Area E1 is a small secured area containing a storage building. Approximately 12 unidentified objects are also inside the secured area.

Area E2 contains 4 storage buildings and 3 support buildings.

Area E3 contains 3 storage buildings and a support building.

Area E4 contains 2 storage buildings and 3 support buildings.

Ammunition Storage Areas

Area F1 is a probable ammunition storage building surrounded by a fence and a fire break.

TOP SECRET

25X1

Area F2 contains 3 probable ammunition storage buildings. The buildings are secured and surrounded by a firebreak.

Equipment Storage/Maintenance Areas

Area J1 contains a 55- by 155-foot vehicle maintenance/storage building, 2 general storage buildings, 5 support buildings, an administration/support building, and a 210- by 350-foot vehicle park.

Area J2 contains ten 55- by 230 foot probable storage buildings, 3 vehicle maintenance/storage buildings (40 by 90 feet, 40 by 130 feet, and 50 by 150 feet), 4 general storage buildings, 9 support buildings, a 95- by 350-foot vehicle park with 2 rows of vehicles, and a 220- by 550-foot probable vehicle park.

Athletic Field

Area K consists of an exercise track and probable playing field.

Small-Arms Firing Range

Area L is a 380- by 100-foot probable small-arms range.

Driver-Training Area

Area M is a tracked-vehicle driver training area with heavy trackage throughout. A large closed training course is located just north. The closed driver-training course appears to be utilized by both Kamen-Rybulov Army Barracks Northeast and Kamen-Rybulov Army Barracks Troitskoye.

Tank/Assault-Gun Firing Ranges

Area N1 is a 3,400 foot tank/assault-gun firing range with three 1,900 foot lanes and 4 moving targets, and is heavily utilized the year round. Two target runs located northwest

of the main tank runs could be used for static firing from the range head, a distance of approximately 2,000 feet. Comparative cover shows greater utilization of 3 moving targets since [] Snow cover []

[] indicates moderate to heavy usage of N1 during the winter months.

Area N2 is a 5,000-foot tank/assault-gun firing range with three 4,500-foot lanes and 2 moving targets. N1 and N2 appear to utilize the same range-control building, and there are at least 5 other buildings scattered throughout the area. Tank runs southeast of the main range have shown little or no activity since the summer []

Area N3 is a 2,500-foot tank/assault-gun firing range with four 1,700-foot lanes. Summer [] coverage shows a moderate degree of activity and 2 moving targets. Latest coverage indicates a decrease in activity on all but 1 lane and no moving targets.

Flat-Trajectory Firing Range

Area P is a 765-foot probable flat-trajectory subcaliber range with 2 moving targets.

Artillery Emplacements (Batteries)

Area Q1 is a 3-position possible field artillery battery.

Area Q2 is a 2-position possible field artillery battery.

Infantry or Combined Arms Field Training Area or Courses

Area R is a fortified position located approximately 1.5 km south-southeast of the installation consisting of zig-zag trenches and several probable automatic weapons positions.

Special Training Facilities

Area S is a probable range consisting of

5 parallel scars approximately 300 feet long, and a scar at right angles extending approximately 500 feet. This probable range was built after [] and is still possibly under construction.

Unidentified Facilities or Tracking Activity

Area T, containing unidentified trackage, is approximately 4 km south of the tank-firing ranges (not shown on graphics).
